Education

Ajay Kumar Garg Engineering College

Bachelor of Technology in Computer Science

September 2022 – May 2026

Ghaziabad, U.P.

Experience

ClickPe (YC W23)

June 2025 – Present

Software Developer Intern

Remote

- Published a production-grade app to the App Store, integrating **Firestore Analytics** and **Crashlytics** to track KPIs, achieving a **20% reduction** in crash rates and improving user retention.
- Developed and deployed backend APIs on **AWS Lambda** (Python), integrating with DynamoDB and S3, reducing backend response times by **35%**.
- Built a **CI/CD pipeline** that automated app builds, ran integration tests, and uploaded signed artifacts to **AWS S3**, cutting release preparation time by **40%**.
- Forked and customized a **pub.dev** package to meet unique business requirements, accelerating feature delivery by **30%**.
- Collaborated in sprint planning using **Jira**, utilized **Metabase** dashboards for data-driven decisions, and contributed to feature architecture from ideation to deployment.

Infitout Technologies

Aug 2024 – June 2025

Flutter Developer Intern

Remote

- Developed and launched a **trading app for Alice Blue**, available on the **App Store** and **Play Store**, reaching **10,000+ downloads** and delivering a smooth trading experience.
- Delivered cross-app login by integrating with Alice Blue's **ANT MOBI** using **deep linking**, making the authorization process faster and more user-friendly.
- Engineered interactive and easy-to-read graphs, such as **treemaps** and **candlestick charts**, to display trading data clearly and **boost user engagement by 30%**.
- Integrated **CleverTap SDK** to track user behavior, send targeted push notifications, and analyze feature usage, helping improve retention and app performance.

Projects

TrackSheet | Flutter, Dart | [PlayStore](#) | [AppStore](#)

June 2025

- Architected and published a Student Portal, reaching over **3.26K total installs** and maintaining a consistent **4.15 star average rating** on the Google Play Store.
- Achieved rapid user growth reaching **1300 daily active users** and **5000 monthly active users**.
- Executed a CI/CD pipeline using **GitHub Actions**, **Fastlane**, and **Shorebird**, reducing development and release time by over **50%** through automation.
- Maintained technical quality with a low **0.281% crash rate** and **0.069% ANR rate**, ensuring a stable and responsive user experience across **2.21K active devices**.

Bytepad | Flutter, Dart | [Play Store](#)

November 2023

- Built a Flutter app allowing students to **view and download 3000+ previous year papers** categorized by subject and semester.
- Implemented an optimized in-app PDF viewer and caching system, reducing **load time by 40%** and enabling smooth offline access.
- Reduced UI jank by over **60%** during scroll and navigation through performance profiling and efficient asset rendering.

Technical Skills

Languages: Dart, C, C++, Python, JavaScript, Java

Developer Tools: VS Code, Android Studio, Git, Github

Technologies/Frameworks/Libraries: Flutter, Node.js, React.Js

Achievements

- ICPC Kanpur regionalist in 2024.
- Achieved **Specialist** rating on **Codeforces** with a rating of 1429 and earned a **4-star** rating on **CodeChef** with an **1819 rating**, demonstrating strong competitive programming skills and consistent performance.
- Solved over **600 questions on LeetCode** with rating of **Knight(Top 5% 1850+ rating)**
